Dear Dr. Vertessy:

**LAWFUL NOTICE BY REGISTERED POST WITH DELIVERY CONFIRMATION
WITHOUT PREJUDICE AND IN GOOD FAITH**

Enclosed is a copy of my investigation into climate science and claims made by academics and agencies funded by government. It confirms that you have failed in our past communication to provide empirical scientific evidence and logical scientific reasoning that human carbon dioxide (CO₂) caused/causes/will cause global warming (aka climate change).

My report discusses your claims and statements. It is true and correct to the best of my knowledge. I offer you this opportunity though to identify, specify and justify significant material errors you may perceive in my report. If you consider such errors exist please identify them specifically and provide empirical scientific evidence and/or facts. Please simultaneously declare your personal financial interests in advocating the claim that human CO₂ should be cut.

If I have not received a specific and scientifically or factually justifiable list together with your declaration by Friday, March 1st, 2013 I will assume you do not disagree with my report.

Unless you have empirical scientific evidence and reasoning of damaging warming caused by human CO₂, please cease making direct or implied public claims that human production of CO₂ needs to be cut. Please withdraw your past claims and BOM reports. If you continue making such claims and fail to retract past claims you will be knowingly misleading the public and parliament. Please stop advocating policies harming humanity and/or the environment.

In the interests of accountability and transparency this letter and your response(s), if any, will be posted on the Internet.

Yours sincerely,

Malcolm-Ieuan: Roberts.
