Dear Mr Roberts

Thank you for your letter of 11 March 2013 as a follow up to our reply of 1 March to your first letter.

In response to your original request to 'identify, specify and justify significant material errors in your report', I repeat that the Bureau of Meteorology does not provide a peer review service on request for members of the public.

Our decision not to undertake a review is not to be considered as a Bureau endorsement or agreement to the claims in your report.

Again, we wish you well with your own investigations.

Yours sincerely
