Dear Steve:

Enclosed is the report you requested.

I'm available to discuss this with you privately, publicly and/or on air. I'm available to debate the core issues in CSIRO's implied claims that human CO2 caused global warming (aka climate change): (1) UN IPCC reports as the basis of Australian government climate policy and supported by CSIRO; (2) the empirical scientific evidence on the core claim and basic questions; (3) the impacts and consequences of taxing and/or *trading* CO2.

I hope the enclosed assist you in continuing to inform your listeners.

Yours sincerely,

Malcolm Roberts

Mr. Andrew Bolt
Herald-Sun Newspapers
PO Box 14999
MELBOURNE VIC 8001

Dear Andrew:

Your courage in exposing corruption of climate science and protecting free speech in Australia is much appreciated.

I hope the enclosed report is of assistance. I trust that my discussion in Appendix 13 about Mike Carlton's smear clarifies the situation. If you identify any errors please specify.

In the early days of writing this report I'd planned to send it to you with books explaining the destructiveness of international banks. Mike Carlton's false and unfounded smear about us proves that it's time for Australians to understand the reality of international bankers controlling our nation. You're a prominent respected journalist and your responsibility in revealing reality is daunting. I hope the enclosed books and references within my report's appendices assist you.

Together with letters to politicians this letter is being posted on the web. I hope the enclosed assist you in saving, restoring and protecting our country and restoring freedom of speech.

Yours sincerely,

Malcolm Roberts
