Senator the Hon Penny Wong  
The Senate  
Parliament House  
Canberra ACT 2600

Dear Senator Wong:

**Re: Instead of Two Dead Elephants, Protect the Environment and Scientific Integrity**

On February 4th, the Indian Environment Minister, Mr Ramesh announced the Indian government had formed its own climate assessment body because it "cannot rely" on the UN IPCC. The enclosed document—*'Two Dead Elephants in Parliament'*—explains why.

Last week I electronically sent you an early version of this document. The rate of discovery of startling revelations discrediting the UN IPCC as unscientific and politicised already renders that document out of date. The enclosed paper update is provided so you have the facts.

To respect your time and workload, the document includes a summary. The extensive list of facts is also written so that by skimming you will be able to obtain a detailed understanding.

Senator Wong, you've been repeatedly made aware that the UN IPCC's core claims are unfounded fraudulent fabrications. By continuing to promote your CPRS, it seems clear that you are committing fraud. Please read and consider the attached facts and reject the CPRS bill.

You now know that all Australia knows that you know about the dead elephants in parliament. You have the facts. The choice for your name on the enduring parliamentary record, and the choice for all Australians including our grandchildren is yours. Your choice will be your legacy.

Yours sincerely,

Malcolm Roberts
